[Transcription Software For Mac](#)

The screenshot shows a web-based transcription tool. At the top right, there are links for [Login](#), [Register](#), and [Lost password?](#). Below these, there is a link to [Download Phenalyzer for Mac and Windows!](#). The interface includes a language selection section with radio buttons for British, American, and Transliteration (Cyrillic). A [Transcribe!](#) button is positioned to the right of the language options. Below the language options is a toolbar with various icons for text editing. The main area consists of two large text input fields. The left field contains the placeholder text "Enter your text here and click the Transcribe button." The right field is empty. On the far right side of the interface, there is a vertical stack of characters: "ir", "fu", and "C". At the bottom of the page, the copyright information reads "Copyright 2013 [Alexei Yurikhtov](#)" and "Powered by [web2py](#) and [google](#)".
